

IN THE CLAIMS

1-49. (Canceled).

50. (New) A method of prescribing and selling a medical supply through a website associated with a medical care provider comprising:

conducting a medical examination on a patient, wherein the medical examination is

conducted by the medical care provider;

prescribing the medical supply for the patient, wherein the medical supply is prescribed

by the medical care provider based on the results of the medical examination;

accessing the website associated with the medical care provider, wherein the website

includes an array of prescription medical supplies including the medical supply

prescribed by the medical care provider;

ordering the medical supply prescribed by the medical care provider from the website

associated with the medical care provider; and

wherein the medical care provider that prescribed the medical supply receives payment

for the medical supply ordered from the website associated with the medical care

provider.

51. (New) The method of claim 50 wherein ordering the medical supply prescribed by the medical care provider from the website comprises ordering the medical supply from a medical supply vendor that fulfills the order placed through the website associated with the medical care provider.

52. (New) The method of claim 51 wherein the medical supply vendor is a supplier of medical devices.

53. (New) The method of claim 51 wherein the medical supply vendor is a supplier of pharmaceutical products.

54. (New) The method of claim 51 wherein the medical supply vendor is the medical care provider.

55. (New) The method of claim 51 further comprising arranging payment through an e-commerce provider for the medical supply prescribed by the medical care provider.

56. (New) The method of claim 55 wherein the e-commerce provider credits or debits an account associated with the medical supply vendor for the sale of the medical supply prescribed by the medical care provider.

DI 57. (New) The method of claim 56 wherein the e-commerce provider is the medical care provider.

58. (New) The method of claim 55 wherein the e-commerce provider credits or debits an account associated with the medical care provider that prescribed the medical supply for the sale of the medical supply.

59. (New) The method of claim 58 wherein the e-commerce provider is the medical supply vendor.

60. (New) The method of claim 55 wherein the e-commerce provider credits or debits an account associated with the medical supply vendor and an account associated with the medical care provider for the sale of the medical supply prescribed by the medical care provider.

61. (New) The method of claim 50 wherein the medical care provider is a licensed medical care professional.

62. (New) A method of prescribing and selling a medical supply through a website associated with a medical care provider comprising:

conducting a medical examination on a patient, wherein the medical examination is conducted by a medical care provider having a website;

prescribing a medical supply for the patient, wherein the medical supply is prescribed by the medical care provider based on the results of the medical examination;

providing access to the website associated with the medical care provider, wherein the website includes an array of prescription medical supplies including the medical supply prescribed by the medical care provider;

wherein the medical care provider that prescribed the medical supply receives an order through the website for the medical supply; and

wherein the medical care provider that prescribed the medical supply receives payment for the medical supply ordered from the website associated with the medical care provider.

63. (New) The method of claim 62 further comprising arranging payment through an e-commerce provider for the medical supply prescribed by the medical care provider.

64. (New) The method of claim 63 wherein the e-commerce provider credits or debits an account associated with the medical care provider that prescribed the medical supply for the sale of the medical supply.

65. (New) The method of claim 63 wherein the e-commerce provider is the medical care provider.

66. (New) The method of claim 62 wherein the medical care provider is a licensed medical care professional.

67. (New) The method of claim 62 wherein providing access to the website associated with the medical care provider comprises maintaining a website on the World Wide Web.

68. (New) A method of prescribing and selling a medical supply through a website associated with a medical care provider that prescribes the medical supply, comprising:

DI
accessing the website associated with the medical care provider that prescribed the medical supply wherein the website includes an array of prescription medical supplies including the medical supply prescribed by the medical care provider; identifying the medical supply prescribed by the medical care provider on the website associated with the medical care provider; ordering the medical supply prescribed by the medical care provider through the website associated with the medical care provider that prescribed the medical supply; delivering the medical supply prescribed by the medical care provider and ordered through the website associated with the medical care provider; and wherein the medical care provider that prescribed the medical supply receives payment for the medical supply ordered from the website associated with the medical care provider.

69. (New) The method of claim 68 wherein ordering the medical supply prescribed by the medical care provider through the website associated with the medical care provider includes

ordering the medical supply from a medical supply vendor that fulfills the order placed through the website associated with the medical care provider.

70. (New) The method of claim 69 wherein the medical supply vendor and the medical care provider are the same or related businesses.

DI 71. (New) The method of claim 69 wherein an e-commerce provider accounts between the medical care provider and the medical supply vendor for the sale of the medical supply prescribed by the medical care provider and ordered through the website associated with the medical care provider.
